

Maximize Learning with Effective Technology for Various Learning Styles

Tuesday, Oct. 2, 9:15 – 11:15 a.m.

Tuesday, Oct. 9, 6:30 – 8:15 p.m.

**Does seeing your child on a computer or tablet make you a bit crazy?
Would you like to learn how devices can be customized to your child's learning style?**

In this presentation session, Debbie Campbell, educator and founder of Effective Technology for Learning, LLC, will:

- Ensure you buy a device that does the work you want it to do by examining differences between laptops, Chromebook and iPad;
- Breakdown various tasks students engage in during a school week and identify technology tools that can assist them; and
- Provide insight on reducing time spent on school work to enhance results by learning how to best fold technology tools into your student's academic work.

Debbie Campbell is an educator who began researching ways to integrate technology tools to help her children reach their academic potential while reducing the stress and frustration that came with some assignments. From the encouragement of her colleagues and other families requesting her support, Debbie launched Effective Technology for Learning, LLC and works with families and schools to maximize the technology at hand for student benefit.

Parents, school administrators and community members are welcome and encouraged to attend PIN's presentations. Presentations are FREE! No need to RSVP. Oct. presentations will be at:

NEW LOCATION: 14603 E. Fremont Avenue, Centennial, CO 80112

(just south of Arapahoe Rd., off of Jordan Rd.)
